

Allergy Antidotes Workshop

Do you, your family members, or your clients have vague, confusing, or undiagnosed emotional or physical symptoms? Do you suspect that foods or other substances may trigger emotional or physical symptoms? Allergies have been known to contribute to symptoms of:

~ ADD, ~ Autism, ~ Asthma, ~ Anxiety, ~ Arthritis, ~ Brain Fog, ~ Depression, Panic Attacks, ~ Chronic Cough, ~ Chronic Fatigue, ~ Digestive Problems
~ Unexplained Symptoms

Allergy Antidotes uses muscle testing to identify the cause of allergic reactions using easy, noninvasive Energy Psychology techniques to eliminate the negative reaction.
